Summary

Full Stack Java Developer with hands-on experience building end-to-end web applications using Spring Boot for RESTful APIs and React with Tailwind CSS for responsive user interfaces. Proficient in Java, modern JavaScript, MySQL, API testing with Postman, and version control using Git and GitHub.

Skills

Languages: JavaScript (ES6+), Java OOPs, Java Collection, HTML5, CSS3.

Front-End: React.js (library) , Tailwind CSS(Framework) , Material-UI.

Back-End: JAVA (SPRING-BOOT) ,Spring Data JPA/Hibernate , JDBC, MySql.

Build &Dependency Management Tool : Maven

Tools & Concepts: Git, GitHub, RESTful APIs ,Vercel, Postman.

Projects

CPU SCHEDULING ALGORITHM VISUALIZER ON UI (OS) | [LIVE](#)

Sep 2025 – Oct 2025

- ❖ Developed a web application that simulates major CPU scheduling algorithms (FCFS, SJF, Priority, Round Robin).
- ❖ Built this project to overcome my own difficulty in understanding CPU scheduling algorithms and to help future students learn them easily through visualization.
- ❖ The CPU is the brain of the computer, and efficient CPU scheduling helps improve system utilization and performance.

CHAPATIMART (E-COMMERCE_FOR RELATIVES SHOP) | [LIVE](#)

Dec 2025 – Feb 2026

- ❖ Clearly aimed to help my relatives shop to improve business productivity by introducing online ordering system instead of manual order handling. I approached them with this idea to modernize their workflow.
- ❖ A key motivation behind this project was that ,since I had the knowledge to build such an application, I chose to develop it myself rather than relying on an external freelancer.
- ❖ The application is fully functional and consist of three main modules:

Admin (Shop Owner) : Controllor of hole application

Customer : Users who place orders for daily essentials

Delivery Boy : Play major role of handle order supply from shop to that particular customer location

Awards & Certifications

- ❖ **Participant, Smart India Hackathon – 2025, Government of India:** Build a full-stack web application prototype as part of a 6-member team to solve a national-level problem statement in a 36-hour hackathon.
- ❖ **Participant, Model Exhibition – 2024**
- ❖ **Participant, ICAT – Internship Common Aptitude Test**

Education

B.Tech. Computer Science & Engineering

Pursuing: 2026

Shreeyash College of Engineering & Technology Sambhajinagar .

First_Year :- CGPA: 7.11/10

Seond_year:- CGPA : 7.58/10

Third_year:- Pursuing
